

AL-Tuwaijri

Altuwaijri Industrial Equipment co.

Model:

SPECIAL 411 M/S 380V/60HZ/3PH

Description:

BANDSAW MACHINE WITH COMPLETE STD. ACCESSORIES

- Vertical rotation on bolt with adjustable tapered bearings without backlash.
- High-capacity band control by two-speed motor and special reducer with bronze gear tempered and ground worm screw
- Appropriately dimensioned flywheels.
- Strong band guides with tight stress-raiser bearings and adjustable width tips.
- Bands stretching is obtained by electro-mechanical blade tensioner with microswitch.
- Vice with a device for quick approach
- Accident-preventing devices on the flywheel casing, on the control handle and on the blade.
- Cutting thickness 1,2 mm
- Cutting range 45° left 60° right
- Adjustable stop for cuts of the same size
- Pedestal with chip collection tray and removable tank for coolant
- Machine pre-arranged to be moved on transpallet
- 0,06 kW power-driven pump for band cooling
- Operation:
Cycle start is obtained by pressing the relevant start button. The machine performs the following operations during the cutting cycle:
 1. vice closing and activation of band motor
 2. cutting bow downstroke
 3. return of bow to initial position
 4. band motor stop
 5. vice opening
- Possibility of manual cut
