

AL-Tuwaijri

Altuwaijri Industrial Equipment co.

Model:

511-343 (35-60MM)

Description:

BORE GAGE

A dial bore gauge designed for ID measurement over a wide range using interchangeable anvils. Tungsten carbide contact points ensure high durability and wear resistance. High-accuracy measurement is aided by a large grip with a sponge-like structure that reduces heat transfer from the operator's hand. Optional extension rods can be attached for measuring inside deep holes.

No.	511-343
Range	35-60mm
Graduation	0.01mm
Accuracy	$\pm 16\mu\text{m}$
Probe depth	150mm
Repeatability	0.5 μm
Adjacent error	1 μm

- Supplied boxed with interchangeable anvils and washers.
- Allows inside diameter measurement with high accuracy.
- Longer effective stroke (compared with the conventional product).
- Carbide contact points ensure high durability and wear resistance.
- Sponge-like structure on handle reduces heat transfer from the operator's hand by 50%.
- Interchangeable washers 0.5mm thick are supplied as standard accessories to enable setting in small steps.
- Optional extension rods can be attached for measuring deep holes.
- A Bore Gauge Checker and a range of Setting Rings are available to aid in accurately setting a gauge before making a measurement.
